🚀 How we turned \$1,500 into \$125K in veneer case revenue for one of our cosmetic practices this month 💰

Here are the 3 essential keys that made it happen:

- 1 In-house content is 🔑. Documenting the essence of your provider & team beats outsourcing every time. It's more authentic and efficient.
- 2 Balance AI, automation & human touch. Over-automation in aesthetic dentistry hurts conversions—people want a personal connection.
- 3 Hire a CMO who specializes in aesthetic dentistry. The strategies for general dentistry don't work for veneers. Long-term success needs tailored expertise.

Headline: What cosmetic dental marketing strategies actually work?

Ad Copy:

💭 “What cosmetic dental marketing strategies actually work?”

If your marketing has never worked the way you wanted—or worse, you’re starting to wonder if it ever will—you’re not alone. Many cosmetic dentists feel this way because traditional strategies don’t connect with the patients you actually want to attract.

Here’s why:

Most agencies take a one-size-fits-all approach, designed for necessity-based services like implants. But veneers and smile makeovers are desire-based products, and marketing them requires a completely different approach.

- ❌ Many agencies promise fast results because they're focused on covering overhead, not your long-term growth.
- ❌ Their strategies are transactional, focused on short-term wins—not trust and authority.
- ❌ They skip emotional anchoring, which is critical for desire-based products.

Patients don't choose veneers because they need them. They choose them for confidence, better first impressions, or new opportunities. These are deeply emotional decisions, and if your marketing doesn't tap into those emotions, it won't work.

What actually works?

- ✅ Strategies that build trust, expertise, and emotional connections.
- ✅ Content that helps patients see the value of you, not just the price of veneers.
- ✅ Long-term systems that create sustainable growth—not quick, flashy results.

If your marketing feels stuck, it's likely because it was built for someone else's business model—not yours.

Desire-based services like veneers need a nuanced approach, one that understands your patients and their journey. Curious how to make this happen? Message us—no strings attached. Let's start a conversation.

Headline: How much do I need to spend on ads

Ad Copy:

💭 “How much do I need to spend on ads to grow my brand and generate more veneer cases?”

It’s a big question, but let’s break it down so you know what it really takes to grow—not just your revenue, but a brand that attracts your dream patients consistently and predictably.

Most cosmetic dentists are told by agencies, “Just spend more, and the results will come.” But have you ever asked yourself:

- Why does my ad spend sometimes feel like it’s going nowhere?
- How do I know my ads are even reaching the right people?
- What am I doing wrong if leads aren’t turning into veneer cases?

Here's the truth:

📌 CPA (Cost Per Acquisition): Most practices spend \$2,000–\$3,500 to acquire one veneer patient. This happens because their campaigns target everyone, wasting money on leads that aren't qualified.

📌 What's Possible: With the right strategy, CPA drops dramatically—our clients often achieve \$200–\$500 CPA while attracting higher-quality patients who are already primed to move forward.

📌 Folding Time: Without the right strategy, building a practice that thrives can take 10+ years. But when ads, content, and sales systems work together, that growth can happen in 2 years or less.

Why does this matter?

Because if you're ever going to step back from the day-to-day grind, your practice needs to grow larger than you. That means building trust, authority, and systems that generate results passively—so you can focus on what you do best.

Most agencies promise “magic” with no real plan. They come and go, leaving practices with high CPAs and no real return. When you focus on systems that are built specifically for your goals, your brand grows predictably, sustainably, and profitably.

If you've been wondering why your ads aren't delivering, or you're not sure what to do next, message us—no strings attached. Let's figure out what's holding you back and how to fix it.

Headline: Why do marketing agencies always fail cosmetic dental and aesthetic practices?

Ad Copy:

💭 “Why do marketing agencies always fail cosmetic dental and aesthetic practices?”

If your marketing has never worked the way you wanted—or worse, you’re wondering if it ever will—you’re not alone. Many cosmetic dentists and aesthetic professionals struggle because traditional marketing approaches don’t connect with the right patients.

Most agencies treat your services like necessity-based products—selling implants or extractions—where patients need the treatment. But veneers, smile makeovers, and aesthetics are desire-based products, requiring a completely different approach rooted in emotional anchoring and brand positioning.

🚫 Why Agencies Fail:

1. They focus on short-term wins, not long-term success. Their goal is to generate quick leads to cover their growing overhead, leading to high client churn instead of sustainable growth.
2. They overlook emotional anchoring. Patients don't buy veneers—they invest in confidence, relationships, and self-image. Without tapping into these emotional drivers, marketing efforts fall flat.
3. They attract the wrong patients. Generic messaging brings in price-driven leads who aren't serious, wasting your time and resources.
4. They lack sales integration. Leads alone won't grow your practice—without the right sales process, they won't convert into booked cases.

✅ What Actually Works:

Effective marketing needs to:

- Anchor value to emotion by helping patients visualize the transformation beyond the procedure.
- Position you as the authority with content that builds trust and primes patients before they inquire.
- Implement strategic systems that create long-term brand growth, not quick gimmicks.

At Cosmetic Social Club, we do things differently. Unlike agencies juggling dozens of clients, we keep a limited roster to build intimate, long-term partnerships. Our approach has generated over \$100 million in sales for our clients by aligning every touchpoint with how patients make buying decisions—overcoming objections, anchoring value, and building demand.

If you're ready for a strategy that actually works, message us 'GROW'—no strings attached.

Headline: \$250,000 Production Guarantee

Ad Copy:

Cosmetic Dental marketing “Offers” and “Guarantees” are BS.

In fact, it took us two years to even cave into launching this limited “offer” at all, and it is only for YOUR benefit! (Yes, you: The provider)

We hear about it everyday:

Knowing who to hire to help with your marketing, advertising and cosmetic case acquisition is so difficult because it seems like you get a new ad every 5 minutes from an “expert”, and you don’t even know who is telling the truth.

Spoiler alert: More often than not, no one is.

So, why should you believe that we are? Great question.

Since 2019 we have developed curated strategies to disrupt cosmetic dentistry forever.

The Cosmetic Social Club is where “one-size-fits-all” marketing for cosmetic dentistry has gone to die.

We can guarantee you over \$250,000 in revenue STRICTLY from the cosmetic dentistry that you want to do over the next 6-12 months because we have done it over 50 times with some of the best providers in the world (Check out our IG).

We do things right:

- We fly out to your practice and develop a REAL working relationship IN PERSON. (Crazy concept, we know).
- We don't mass-market. We don't hand you off to junior media buyers. We're a carefully crafted team that delivers white-glove service with guaranteed growth.
- We sit with you, face-to-face, every quarter, refining your marketing, building systems that attract high-value veneer cases, and setting KPIs that don't just look good on paper—they translate into real growth.
- We do not make "offers" or "guarantees" because they set unrealistic expectations. (Except for this limited-time "offer" you are reading about right now. Which, by the way, is strictly being done to make the decision to start a conversation for you easy. All of our clients produce more than what we are offering.)
- We're not some agency you bolt onto your business. We become part of your business and build longevity, focus on lifestyle goals and enterprise value.

Every strategy we develop is custom-built. Every piece of content taps into the desire-driven psychology that cosmetic dentistry demands—because unlike implants or general dentistry, no one needs veneers. They want them. And we've mastered how to turn that desire into consistent, high-value cases.

Our clients aren't just world-renowned dental celebrities, nor are they mere names on a contract.

They're partners, friends, and industry leaders generating over \$2 million a year from cosmetic procedures alone—while making their own schedule however they see fit.

It's our mission—after partnering with Paste Presents and attending masterminds like the Elite Mastermind by Dr. Brian Harris—to help ten more providers achieve their cosmetic dental goals and build the efficient, thriving brand they've always dreamed of.

Just ten more providers until 2027. That is it.

Click the link below, or Message us the word SMILE to begin your virtual consultation and see if we're the right fit for your practice, and you for our systems.

Want more info? Check out our Instagram or shoot us a message with the word SMILE to learn more.

If you are seeing this it is because we still have a roster spot remaining.

Our application list hasn't been open since 2024—the clock is ticking.

After this round, new registration will be closed until February 2027.

Reach out today if you're ready to transform your practice.

To Your Success,

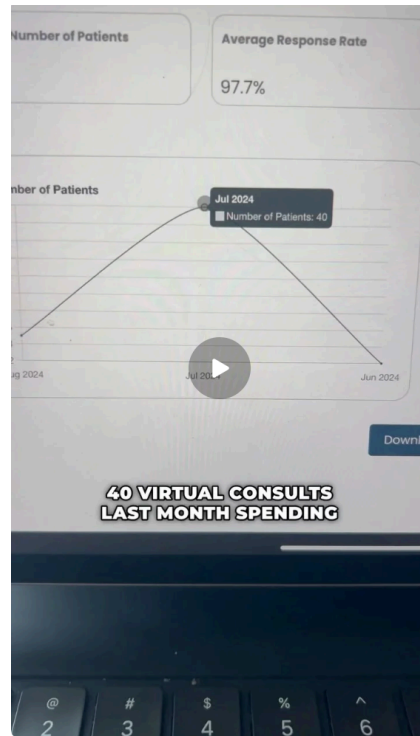

Zac & The Cosmetic Social Club

Ad Copy:

💣 Cosmetic Dentistry, Nerd Bomb here! Last month, we **doubled** our veneer case acceptance rate from 20% to 50%—and get this, we **cut** our ad budget in HALF to do it. 📦

Here's how we made it happen:

➡ We did 40 virtual consults in one month spending \$2,200 and closed 8 cases. Not bad, right?

➡ But the next month, we did 25 consults, spent just \$1,100, and closed 12 veneer cases.

➡ The secret? An AI-powered chatbot I built that keeps the process human, personal, and effective. No cold sales, no soliciting—just meaningful conversations that naturally lead to case acceptance.

The best part? It's all automated while maintaining the integrity of that very human, vulnerable experience veneers represent. This bot has helped us nurture leads, educate them, and gently guide them toward their perfect smile. 😊

Cosmetic dentists, I understand the struggle—because I’m an artist just like you.

Over the past 5.5 years, I’ve helped generate over \$10M in veneer cases for dentists who know how to craft perfect smiles but struggle to run a business that reflects their talent.

I’ve built my own artistry as a recording artist with over 40M streams and driven \$25M in my own entrepreneurial ventures.

Here’s the hard truth: many of us get lost trying to balance artistry with running a profitable business.

Does this sound familiar?

- You’re pouring everything into perfecting your craft, but patients aren’t lining up like they should.
- You’re tired of marketing agencies that throw out one-size-fits-all solutions, but they don’t understand the delicate balance of artistry and business you need.

- You're frustrated that you've invested in your skills, yet you're not attracting the high-value veneer cases that let you showcase your talent.

That's where we step in. We don't just run ads or follow trends—we build a marketing strategy that honors your artistry while driving results. From psych-based**TM** content to systems that convert...

We take over your marketing with confidence so you can focus on what you do best: creating beautiful smiles.

Let's build your dream practice where your artistry and business thrive together.

50+ NEW PATIENT PHONE CALLS PER MONTH

👉 That's what many dental practices that work with us achieve via Google Maps...

It's the most affordable, consistent and profitable way to acquire patients without having to:

- ❌ Spend thousands of dollars on ads.
- ❌ Send out flyers that get thrown out.
- ❌ Create endless content on social media.
- ❌ Stress out front desk with "follow up."

Google Maps is the 3 pack section that shows up on the first page of Google when new patients in your area search keywords like:

- ✅ Dentist Near Me
- ✅ Dentist [Your City]
- ✅ Best Dentist in [Your City]

✅ and much more!

This section even shows up above your website!

That's why it's so important to ensure your dental practice shows up in the top 3 Google Maps so you can acquire dozens of new patients each month.

The best part is that you pay nothing when a new patient calls from Google Maps! It's free!
